# Konoha Torture and Interrogation Force

The **Konoha Torture and Interrogation Force** is a special division within Konohagakure headed by Ibiki Morino. Their base of operations is located in the Konohagakure Intelligence Division.

People are often taken here and left in Ibiki's hands in order to extract information from them through various means, whether they are living or dead. There is a special division dedicated to the autopsying of corpses. A select number of their members are referred to as "*elite chūnin*", some of whom are part of the division known as the Analysis Team; a team led by Inoichi Yamanaka, who specialises in the extraction of information from targets using unique techniques, such as the Psycho Mind Transmission.
